2 Supply of Stamping Hammers to Toll-gate.—

File No. of 193 | General and Revenue Secretariat

Letter No. C. 2173/35-36 dated 6/7 May 36 from the Rev. Comr. Stating that quotations were called for from two approved firms M/s M.A.T. Acharya Trs & M. Jabbar & Bros who quoted Rs 40/- & 12/- respectively and suggesting that in view of the quotations received being very heavy, circular brass discs may be issued in token of the composition of tolls for being exhibited on the yoke of the carts instead of making impressions with the Stamping hammers

Submitted for orders. The RC has not stated what the resulting savings would be consequent on the issue of brass discs, instead of purchasing Stamping hammers.

MSG
12.V.36 This is in regard to the composition of tolls at a single toll gate for bullock carts according to Sec. 21 of the Road Dev. Regn. The rules issued in this connection require that bullock carts should be stamped with a stamping hammer on the yoke and the RC says that two quotations are received for Stamping hammers and that they are Rs 40 & 12 for each hammer respectively. A B P&D

The RC Deeps that the cost of supplying these hammers to all DCs & Amildars will come to a high figure. He therefore suggests that instead of hammers, brass discs may be supplied. The object of prescribing the hammer was that a mark should be made on the cart which was not transferable. If brass discs are supplied, it would be possible to remove them from cart to cart and thus avail of composition in respect of more than one cart. The suggestion therefore is open to this objection.

A

According to the composition in respect of bullock carts at toll-gates does not apply to Frontier gates nor to timber carts at interior toll-gates. The bullock carts are brought to the concession is practically restricted to ad-hoc bridge tolls. There are only 3 such tolls, viz. at T. Narasipur, Akkihebbal
